

IN THE ABSTRACT

Please amend the Abstract as follows:

a' -- ~~The invention disclosed provides a~~ An improved rear view  
imaging system. ~~The invention discloses a system comprising~~  
5 reflective imaging means and means for mounting to a solid  
surface, such as a desk or computer monitor. The system  
~~invention~~ maximizes the possible field of view by providing  
multi-directional rotation of the imaging and mounting members.  
Further, multiple means for coupling and mounting are  
10 contemplated.--
